Partnership with Schools

The DBE will ensure that all schools affected by a proposed development are made aware of the development at the earliest possible opportunity. The DBE will seek advice from school governing bodies on the effect of such developments on their school and will engage with the issues that arise. The DBE will make schools aware of the outcomes of these discussions.

A Church School governing body will ensure that the DBE is made aware of any proposed school development at the earliest possible opportunity. The governing body will seek advice from the DBE on the effect such a development might have on neighbouring schools. The governing body will take note of this advice and make the DBE aware of the outcome of its discussions on development proposals.
